Laura,
Attached is the latest draft letter regarding administrative error and subsequent reaffirmation of the Tejon Indian Tribe. I heard that you had a previous heads up on this. This is a big deal and I wanted to give you the heads up and see if there are any concerns. We want to push this out ASAP. LEH committed to release of this letter by the end of the year (which we can push back if there are concerns), sorry about last minute notice.
We have been working together with the SOL, BIA and DOJ in the development of this letter. There may be a press release and may be a visit by ASIA after this letter is sent out.
Our office has been working for months on this issue and I am available anytime to answer any questions.
Thanks,
Paul
